## EMPLOYMENT HISTORY

### Software Developer at North America Risk Services, Orlando

December 2021 — Present

Develop and maintain the company's apps, develop reusable components using Angular as the front-end framework, and AWS Appsync and lambda resolver for the back-end.

Build REST APIs using AWS's service API gateway.

### Senior Learning Assistant for Fullstack Development at 2U/Trilogy Education, ORLANDO

May 2021 — Present

Support students through their learning process, coding challenges, and homework for the Full-stack Coding Boot-camp.

As a Senior Learning Assistant, I have to support the learning assistants on duty in a difficult situation or in case the student requires further support that the one they can provide.

### Web Development Tutor at 2U/ Trilogy , ORLANDO

May 2021 — December 2021

As a tutor, I had a weekly meeting with the students to guide them through the different challenges the BootCamp might present, if there was no challenge presented by the student We would work on learning how to read the documentation which is a tool I considered might help them in the future.
